## Picnic and Entertainment Planned to Make Sixth Annual Meeting Delightful Affair

The sixth annual meeting of the Pequot-sepos Wildlife Sanctuary will be held on the Sanctuary grounds Monday evening, July 9. An interesting program is being arranged for the meeting and it is hoped that all members residing within traveling distance of the Sanctuary will avail themselves of the opportunity to become better acquainted with their organization and with one another. The evening's events will be scheduled as follows:

### 5:30-6:30 Business Meeting

Report of past year's activities  
Election of Trustees

Plans for the future

### 6:30-7:45 Picnic Supper (Bring your own)

Opportunity will be provided here to tour the nature trails, trailside museum, and forestry demonstration area.

### 7:45-8:30 Entertainment

Outstanding wildlife films will be shown at this time.

This is your official notice of the meeting. Plan now to attend. Get together with other members of your acquaintance and make a real party of it.

## Five Audubon Tours Now Scheduled for 1951 - 52

We are happy to be able to announce at this early date our Audubon Screen Tour schedule for the 1951-1952 season. The schedule follows:

Mon., Dec. 5—Lucie Palmer

"Underwater Kingdom"

Fri., Jan. 25—G. Harrison Orians

"By Erie's Changing Shores"

Tues., Feb. 12—Allan Cruickshank

"Below the Big Bend"

Sun., March 9—Karl Maslowski

"Earthquake Lake"

Thurs., April 3—William Ferguson

"High Horizons"

All five programs will be held at Buell Hall, Williams Memorial Institute, New London. This decision was made by your Board of Trustees for a number of reasons. First, we will have use of a fine auditorium and the best projection equipment available. For the first time, we will be able to have our Screen Tour films shown with professional equipment—16 mm. carbon-arc projection. This will give all our programs professional theater quality. Secondly, the fact that all five programs will be in one location will call for less printing, less advertising, and more concentrated promotion. Perhaps in this way we can bring these outstanding programs to our community without facing a financial deficit.

More complete details concerning these programs will appear in the next issue of **Pequot Trails**.

## The Year's Trails Re-traced

As we look over our past year's activities we find that our program has increased measurably both here at the Sanctuary and in our surrounding communities. More children and adults have participated in Sanctuary activities than during any previous year. This is surely an indication of progress in our endeavor to bring an educational program in the field of conservation to as many individuals as possible.

The five Audubon Screen Tours highlighted our community programs. Some of our country's outstanding naturalists brought lectures and motion picture programs to an audience of nearly 2000 children and adults. During this past season we endeavored to make these programs available to as many of our members as possible. For this reason we divided the programs—one in Norwich, two in Westerly, and two in New London. While this move may have in some respects accomplished its purpose, it did not increase our total attendance. Additional motion picture programs were provided by the Sanctuary for P.T.A. meetings, service clubs, school classes, scout groups, sportsman's clubs, and similar groups. Lecture programs were given by your Curator to varying groups and organizations. Among these were Mystic Rod

and Gun Club, Niantic Boy Scouts' Father and Son Banquet, Mystic D.A.R., Niantic Episcopal Church, Stonington Men's Club, Old Lyme Boy Scouts, New London Garden Club, Winthrop School P.T.A., Ninigret Rod and Reel Club, and similar groups. Your Curator also told the Sanctuary's story on two radio broadcasts—one over station WNLC in New London and the other over station WERI in Westerly.

Other new community activities included the maintenance of a booth at the New London Flower Show and the holding of a Bird Identification Course at the Mystic Community Center. This course proved quite popular with 50 adults participating. Similar courses are planned for the future in other communities.

Field trips this year proved interesting and rewarding to all those who participated. The winter-census trip in January produced a total of 60 wintering species of birds. Approximately 40 species were observed during the 1½ hour's trip around the Sanctuary on Sunday morning, May 6. On Sunday morning, May 27, fifteen members hiked around Napatree Point. Outstanding observations on the trip included good views of a red-headed woodpecker, a king eider duck, and numerous shore birds. Russell Waldo con-

ducted his annual wildflower field trip at the Sanctuary on June 3.

Open house at the Sanctuary on Sunday, May 20, attracted approximately 300 visitors to the trailside museum and nature trails. Since that time numerous school classes and scout groups have visited the Sanctuary. One boy scout troop from Old Lyme used the Sanctuary for two overnight encampments for the purpose of special bird study work. Your Curator worked closely with this group and helped several

### Editors

Mrs. Arthur M. Cottrell, Jr. and  
Thomas P. McElroy, Jr.

### A Statement of Purpose:

We want this publication to be of the utmost service to you—to keep you informed concerning activities at the Sanctuary and in your community; to invite your participation in these activities; and to provide you with general articles of education and inspiration regarding conservation subjects. Won't you drop us a line and tell us what you would like to see published? We would appreciate it.

of the scouts pass their merit badge  
work in bird study.

Perhaps less noticeable, but neverthe-  
less essential to the progress of our  
Sanctuary, has been our continued effort  
to develop physical property. Through  
the generous help of George B. Utter,  
two new trails have been opened this  
year. A variety of seedling trees and  
shrubs were planted this spring. These  
seedlings included such species as privet,  
silky dogwood, Scotch pine, and  
American larch. Some of these seedlings  
are being maintained in a small nursery  
and will be transplanted later to im-  
prove habitat groupings. Two sizeable  
areas have been cleaned of objection-  
able brush and will be ready for shrub-  
bery planting next spring.

In closing, the officers and trustees  
of the Sanctuary wish to extend their  
sincerest thanks and appreciation to  
all those who have in any way helped  
make this our most successful year. Some  
have helped us financially; some  
have contributed books, shrubbery, or  
other needed gifts; others have contrib-  
uted generously of their time and tal-  
ents, while others have shared the use  
and hospitality of their own homes. Such  
cooperation and generosity has  
helped the Sanctuary enjoy its most  
successful year.
